GENERAL CUSTER'S END.

matter of dispute. Inally States and Dixon began their work at the eastern

Hallant Straggle Against the Most Un-even tide. boundary of Maryland, and proceeded westward, while the northern boundary Nover realizing, as I believe, the of Delawace was declared to be a semithat he would find the village 'on the surveying the semi-circle it was found run," and that between himself and that the circumference did not touch the could 'deuble them up' in the boundary of Maryland at its junction to reder, Custor had jauntily tretted then with the Fennsylvania line, thus fown to his death. It was a long five-giving rise to this triangular his of land, tallo ride from where he sighted the which has been discarded by the three customers and of the silver to where northern end of the village to where States and only allowed to attach liself he atrack its center around that hold to l'enneylvan's for judicial purposes.—point of bluff, and from the start to the St. Louis Republic. moment his guidons whirled into view, and his troopers came galloping "front into line" down near the ford, he never and his troopers came galloping "front into line" down near the ford, he never fairly saw the great villago—never freemed of its depth and extent. Rounding the bluff, he auddonly found himself face to face with thousands of the boldest and most existing were respectful to below and most existing were respectful to boldest and most existing were respectful to below and most existing were respectful to be and most existing were respectful to be an are not present for the face of the contract of the contract. boldest and most skillful warriers of the prairies. Hu had hoped to charge at once into the heart of the village, to hear the chors of Rone's men from the south. Instead hu was grooted with a perfect fury uf flame and hissing lead from the douse thicket, of willow, and from the donse thicket of willow and cottonwool, a fire that knot to be answered at once. Quickly he dismounted his men and threw them forward on the run, each fourth man helding, cavalry fashion, the horses of the other tiree. The line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to have a window, then Marcon in the line same to the cause there are portions of the past life decause the control of the line and the line will be an every spoken of my past life the cause there are portions of the past and there are portions of the past and there are portions of the line and the line are portions of the line and the line are portions of The line saems to have swept in parallel very goarly with the general course of the stream, but to no purpose. This foe was ten to one in their front. Boys and squaws were shooting from the willows ("Oh, we had plenty guns?" said our story-tellurs); and worsn than that, hundreds of young warrlors had mounted thoir poules and swarmed across the stream helow him.

The Greater Include Pedestrian—Will you sair, what place this is?

Kativo—This is Chica hundreds more wore following and cir-cling all about him. And then it was that Custor, the hero of a hundred daring charges, seems to have realized that he must cut his way out. "Mount!" rang the trumpett, and leaving many a poorefollow on the ground, the troopers range for their horses. last antily from lodge and willow Organisha and Poul.

oraran for their norses. Issuantly from ledge and willow Ogaislas and Brules aprang to borse and rushed to the ford in mad pursult. "Make for the helghts!" must have been the order, for the first rush was enstward; then more to the left, as they found their progress harred. Then, as they reached higher ground, all they could see, far as thny could see, circling, swooping, yelling like demons, and all the time keeping up their furious fire, were thousands of mounted Sloux. Hemmed in, cut off, dropping fast from their saddles,

end of twenty minutes, and in less than twonty-five-all was ever.—Captain Charles King, in Harper's Magasine.

"NO MAN'S LAND." The Original Strip of Territory Entitle

When one speaks of "No Man'a Land" we generally presume that he refers to that little-nuck of land in Indian Territory, lying between Colorado and Kantas on the north and Texas on the south. Many n poor liltle siekly child has been saved from the grave by its kind mother giving it Dr. Bull's Worm Destroyers, which the little one thought was candy. tengue of land extending a few miles south of the Masen and Dixon line, be-tween the States of Maryland and Dela-

ware. Every new and thea semelody starts the story that this tract is, prop-erly speaking, part of ne State, literal-ly ont of the jurisdiction of the United States; that it is one of the left-over pieces of the whole coun-

wherein as one owns the and upon which he lives. On the maps the ground is created as we had, but, according to those same authorities, the claim is a sundowy one. This triangular hit of territory was marked off in a curious way. The sick headache, disordered stoanach, ose of appetite, bad complexion and bilionsness, they have navar been equaled either in Amarica or abroad.

H. B. Garner, Druggist. marked off in a curious way. The castorn boundary of Maryland was early determined, but the seuthern boundary of Pennsylvania was long a

is laid to the nanealing oven on the "flat" to slowly cool. All the opora-tions are performed with the greatest rapidity, that the plate may be as bet as possible when laid in the even. The number of plates that can be put. in an even varies with the size of the plates. oven varies with the size of the plates. But one luyer of these designed for polishing can be placed in Dit, consequently a large number of evens is need d where large plates are made. These evens are large, shallow brick furnaces, with floors as smooth and level as possible, as the semi-plastic mass midds itself into the unevenness, and any bending of the plates would make them valueless. As soon as the plate is them valueless. As soon as the plate is placed in the even all the openings are carefully closed, and the even is allowed to cool gradually to a point where the glass may be safely removed, generally requiring about three days. The cast plate as it comes from the even is rough and Irregular on its surface, con-stituting the rough glass of commerce, and in this form it is used for roofs and floors, and even windows where light without transpareacy is desired. —Amor-ican Giassworker.

Sems of Nature's Wonders.

The polypus, like the inhied hydra, receives and life from the kaife which la lifted to destroy it. There are 4,041 muscles in a caterpillar, ... llook discovered 14,000 mirrors in the eyes of a drone. To effect the respiration of a carp, 13,300 arteries, vessels, voins, bones, etc., are necessary. The body of every spider contains four little masses, plerced, with a multitude of holes (imperceptible to the naked eye), each hele permitting the passage of a single thread; all of the threads, to the amount of 1,000 to each mass, join to-Soms of Nature's Wonders amount of 1,000 to each mass, join to-gether when they come out, and make the single thread with which the spider spins its web, so that what we call a spider's thread conslats of more than 4,000 threads united. Leuwenbock, by means of microscopes, observed spiders

Beware of Ointments for Catarch That Contains Mercury,

As mercury will surely destroy the sense of smell and completely derunge the whole system when eatering it through the mucous sarfaces. Such through the mncons sarfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the gennine, It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Cheney & Co. Sold by Druggist, price 75c. per bottle.

THE PEOPLE OF CAPRI.

The PEOPLE OF CAPRI.

The 2 prove conding and diven to London Bill's little Mills.

The 2 prove conding and diven to London Bill's little Mills.

The 2 proves, as the people of Capria received, are simple, very confiding grateful for kindness, easily amused, and given to look on the bright side of the group of the mills of the masses, therefore, are always addressed to a large and devout congregation and there is no prevent them, and the mass regularly, Sant' Antonio, patron saint of fishermen, will be a pleased that he will be got begond to and them a made and the masses of the masses, therefore, are always addressed to a large and devout congregation. And so its in all their dealings with the bigher powers. So much devention and there is no pretens at a faith for the sake of appearances. They helive ain that the rectiation of a certain number of the masses, therefore, are always addressed to a large and devout congregation. And so its in all their dealings with the bailty of the bland the professions and fire-works—for which the aaints appear to have a peculiar partiality—so much worldly prosperity. The motive seems low, but at any rate the people believe profoundly in the gods above—their devotion is real, and there is no pretense at a faith for the sake of appearances. They helive ain that the recliation of a certain number of the mills appear to have a peculiar partiality—so much worldly prosperity. The motive seems low, but at any rate the people believe profoundly in the gods above—their devotion is real, and there is no pretense at a faith for the sake of appearances. They helive ain the professions—Cornhill Magazine.

GRASSHOPPER WAR.

GRASSHOPPER WAR.

Lumnense way the mild read the pro

Fourteen Thousand Men Avo Fighting the Pingun in Algeria. Immense swarms of grasshoppers have invaded parts of the country of Algeria and are spelling lots of things. Two thousand soldlers, alcod by 12,000 Arabs, have been employed to fight the pest. The readways present the appearance of a battle-fleid, and extracrdinary efforts are being made to rid the surrounding country of this insect enemy.

This is not the first time that this plague has devastated Algeria. in 1345 the harvests of almost the entire country were destroyed by grasshoppers. From 1747 to 1749 these insects deso-lated Aigeria, extending their ravages ven to parts of Europo.
Millions on millions of the dead

odios of these insects are covering at present the great readway leading from Mascara to Mostagantin and filling the springs and rivers. The task of killing springs and rivers. The task of killing these inasses of grasshoopers is no small one. If magine a district of cue hundred miles in circumference, which not long ago was covered with wheat tobnece, and fig and clive trees, but now is so densely covered with grasshoppera that not a single green branch or leaf can be seen. For three years a distinguished Parisan naturalist, M. Kunkel, has been studying how to ex-HERWOOD -: HOUSE

PECIFICS

The greatest improvement in Corsets during the past twenty years is the use of Coraline in Reserved by whele the "Hemilful Libral Jesus" By Mass, Isaanaha, M. Alaks, (Passy). So reged networpages; 200 aprech Broatentfons Weinly-solared Integraphe, timbe photogra-ures, acquisite sugravings, representing the networks of nucleui and molecup nucleus; a the place of horn or whalebone. It is used in all of Dr. Warner's Corsets and in no others.

The advantages of Corcline over horn or whalebone are that it does not become set like whalebone, and it is more flexible and more durable.

Dr. Warner's Coraline Corsets are made in twenty-four different styles, fitting every variety of figures-thin, medium, stout, long waisis and short waists. , Sold everywhere. WARNER BROS., Mfrs.,

New York and Chicago.
